FRIDAY, AUGUST 19, 1892

TELEGRAMS

TO

STANDARD.

London, 18th.—According to the pro-

posed arrangement which I wired

yesterday the year's interest on the Foreign

Argentine Debt, without amortization,

will amount to \$300,000,000.

The project is much discussed in the

financial circles of the City.

Buenos Aires, 18th.—A terrible fire has

occurred at St. Esteban, near this city.

Many houses were destroyed, and the

loss is great. There was also loss of

life.

Rome, 18th.—The Italian Government,

owing to want of good English inter-

preters, has abandoned the intention of

naming arbitrators in the Behring Sea

question.

As for the bandit near Viterbo

which has been seized by the

troops have been sent in their pursuit,

and their capture within 24 hours is

hoped for.

debt is best for all parties. The tele-

graph to which we allude proposes a new

Mortgage company for three years up to

Dec. 31st 1896 on those terms.

1st The Mortgage loan (\$2,000,000

sterling) to enjoy the same preference

as present, the Government remitting

\$400,000 a month in gold for payment

of interest.

2nd The other bondholders to receive

half cash, half scrip of the Mortgage

loan of 1891, during the years 1894-96.

3rd The railway guarantees to be ex-

cluded from the new arrangement.

As regards the first clause it appears

that the Mortgage bondholders have

a special mortgage on the Custom-house,

which is still to be respected. The loan

in suspense sum up \$24,000,000 sterling,

the interest on which is about \$1,200,000

per annum, and this is to be paid by

Government remittances of \$500,000 a

month and an equal amount of Mortgage

bonds. What is to be done with the railways

is not stated, but the wording of the tele-

gram would seem to imply that the Bar-

ing liquidators abandon them to their

make, and leave the several Companies to

take the best terms they can with Pres.

Sansa Poma.

It is calculated that there will be a

balance of \$6,000,000 sterling in Dec.

1893 of the Mortgage loan of \$15,000,000

which seems highly probable, since the

amount paid out since March 31st

1892 was only \$3,000,000. It is, more-

over, supposed that the interest of

Argentine revenue will leave available

a sum of \$900,000 a month, so as to enable

the Argentine Government to remit

the amount paid out since March 31st

1892 was only \$3,000,000. It is, more-

over, supposed that the interest of

Argentine revenue will leave available

a sum of \$900,000 a month, so as to enable

the Argentine Government to remit

the amount paid out since March 31st

1892 was only \$3,000,000. It is, more-

over, supposed that the interest of

Argentine revenue will leave available

a sum of \$900,000 a month, so as to enable

the Argentine Government to remit

the amount paid out since March 31st

1892 was only \$3,000,000. It is, more-

A close-up photograph of the spine of a book. The spine is made of a light brown, textured material, possibly leather or cloth. The text 'ARK' is printed in a bold, sans-serif font at the top, followed by '1916' in a smaller font. Below this, the letters 'OK' are printed in a larger, bold, sans-serif font. The spine shows signs of wear and tear, with some of the material missing at the top. The book is resting on a dark, textured surface.
